

California Safer Food Packaging and Cookware Act (AB1200)

At Bubba®, we hold high expectations for quality and safety. We aim for you to feel confident using our products—confident in their value, confident in their innovation and confident that our manufacturing practices follow the industry's best safety practices.

We understand that safety is the foundation for confidence. Every product we make meets applicable federal and state agency safety requirements, like the Food and Drug Administration's food contact compliance requirements. And, as many of our products are sold in California, we use this section of our website to provide more information about the chemicals used in our manufacturing process, which is in line with the requirements of the California Safer Food Packaging and Cookware Act.

These chemicals are used to manufacture components for common consumer goods, like stainless steel or plastics. Again, we take product safety seriously and ensure that our products are designed and tested to meet rigorous safety standards. Still, if you ever have questions, our consumer service team is available to provide more information.

A full list of applicable Bubba® products is listed below.

Bubba® Beverageware - Stainless steel (Iron, Chromium, Nickel, Manganese), Styrene, Formaldehyde, and Octamethylcyclotetrasiloxane

California AB-1200 Disclosures - Authoritative lists:

- Chromium (CDC 4th National Exposure Report, CA TACs, OEHHA RELs, CA TACs, CWA 303(d))
- Formaldehyde CA NLs; CA TACs; CDC 4th National Exposure Report; EC Annex VI CMRs - Cat. 1B; IARC Carcinogens - 1; IRIS Carcinogens - B1; NTP 13th RoC - known; OEHHA RELs; Prop 65
- Iron (CWA303(d))
- Manganese (CDC 4th National Exposure Report, OEHHA RELs, CA TACs, CA NLs, ATSDR Neurotoxicants), IRIS Neurotoxicants, CA TACs)
- Nickel (Prop 65, IARC Carcinogens -1, CA TACs, NTP 13th RoC – known, OEHHA RELs, CWA 303(d), CWA 303(c))
- Octamethylcyclotetrasiloxane Canada PBiTs; CECBP - Priority Chemicals; EC PBTs
- Styrene - ATSDR Neurotoxicants; CA MCLs; CA TACs; CDC 4th National Exposure Report; CWA 303(d); IARC Carcinogens - 2A; IRIS Neurotoxicants; NTP 13th RoC - reasonable; OEHHA RELs; Prop 65
